

I'm writing to let you know how I feel about the Indiana Telephone Privacy Act. It's wonderful. I rarely have the government do anything that helps me, and this really has. I had gotten into the habit of not even answering my own phone because of the irritant of telemarketers. This law has made my family and a lot of my friends very happy. I am totally against anything that would lessen its' scope and am hopeful that this input will make you aware of the wishes of the citizens of Indiana.

Thank You,

Gerald Willis
